

Name : Mrs. Vijaya Desai
Organisation : Unnathi, Bangalore
Designation : Senior Healer
Health Problem : Affected by Polio early in life

I am Vijaya Desai from Bangalore. I was affected by Polio early in life and the misery personified. As years rolled by, I got married and became a mother of 2 children. The physical problems continued to affect me due to neurological disorders. I was bedridden and was unable to move about by myself. At his juncture, Pranic Healing came to my rescue. By regular healing and support from Mrs. Surekha Almelkar I could regain myself to a tolerable limit.

Unfortunately I lost my husband and son in a accident which was like a bolt from the blue affecting me physically and mentally to a great extent. This created a shattered position from which I was unable to come out. Constant healings, confidence building measures, and round the clock support has contributed a lot in recovering from miserable position.

Now, I can move about independently and have developed a lot of confidence and now I am Senior Pranic Healer at Unnathi. I owe my speedy recovery to Pranic Healing and especially Dr. Saraswathi Hegde and Unnathi.
